## A message from Mrs Aris...

What a busy but fabulous week we have had.

It was lovely to have Mrs Mckee in school to deliver a Diwali workshop. She commented on the outstanding behaviour from the class. I was so proud of them.

The children were also excellent during our visit to Kirkham Library, they loved looking around the library and asking lots of questions.

On Thursday, we had our Forest School Day. The children loved being outside and taking part in all the different activities. It is great to see how much their resilience is developing during these sessions.

Have a lovely weekend.

Thank you for sharing how you chose your child's name. It has been lovely sharing these with the class. We have also been talking about how we are all individuals made by God. The children have loved sharing what makes them unique.

In English we have been sounding out words to spell them. We had lots of pictures to choose from, all around the topic of Remembrance. The children chose their own pictures and then had a go at sounded out the words to spell them. I was so impressed with their handwriting - Well done Reception!

In Maths, we have been looking at shapes in the environment. The children have been around school on a shape hunt, identifying all the shapes they can see focusing on circles and triangles.
