Spring Term

19th January 2024

A message from Mrs Aris...

What a fun and busy week we have had. The snow added so much fun to our learning and created such amazing memories for the children.

We have been learning about the Arctic so the snow was perfect timing to help the children experience what it is like to be very cold. This week the children had a challenge, the Arctic animals got trapped in pieces of ice. Their mission was to help the animals escape quickly using things from around the classroom. I was so impressed with their resilience and their ideas! Well done children, you managed to get all the animals out quickly and safely!

Have a lovely weekend,

Mrs Aris

Lots of writing this week! We started the week writing all about our weekend - thank you for the photographs, the children loved sharing these in class too. We then wrote about our ice experiment, sharing our ideas of what it was like to melt the ice.

We are continuing to work on tricky words and sounding out words to spell them.

In R.E we have been thinking about how we show love and kindness to others. The children created hearts full of pictures to show who they shared their love and kindness with. Next week we will be looking at the Bible story 'Jesus feeding the 5000' and how we can share with others.

P.E Day - Tuesday

Library Day - Wednesday

Please continue to read every night with your child.

Thank you

In Maths, we have been looking at the number zero and the amount being nothing. The children have loved the story 'None the Number'. They have also enjoyed sorting amounts.
