

Reception News

Spring Term

26th January 2024

A message from Mrs Aris...

This week in Science, we have continued to look at ice. The children had the challenge of trying to stop the ice from melting. They loved experimenting with different things to keep their ice block frozen.

We have also been learning about China this week and started our topic of Chinese New Year. The children have loved learning about how to prepare for Chinese New Year.

Next week we will be tasting Chinese food, all allergies will be catered for.

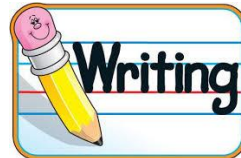

Please see me if you have any concerns.

Mother's Day Prayer and Liturgy -

Thursday 7th March, 2:45pm.

Have a lovely weekend,

Mrs Aris

This week we have been writing about how we pray to God. The children are becoming independent in writing sentences using their phonetic knowledge. We have been focusing on leaving 'finger spaces' between words and ending our sentence with full stops. The children work daily on their letter formation too.

In R.E we have been thinking about how we pray. We have been looking at the prayers we say in school and why we say these.

Next week we will be acting out the Bible story of 'Jesus feeding the 5000'.

P.E Day - Tuesday

Library Day - Wednesday

Please continue to read every night with your child.

Thank you

In Maths, we have been looking at ways to make the number 5. We have been using different resources to show how to represent different numbers to 5.
