

### Key Learning:

To identify that sound can be recorded

- I can identify the input and output devices used to record and play sound
- I can use a computer to record audio
- I can explain that the person who records the sound can say who is allowed to use it

To explain that audio recordings can be edited

- I can re-record my voice to improve my recording
- I can inspect the soundwave view to know where to trim my recording
- I can discuss what sounds can be added to a podcast

To recognise the different parts of creating a podcast project

- I can explain how sounds can be combined to make a podcast more engaging
- I can save my project so the different parts remain editable
- I can plan appropriate content for a podcast

To apply audio editing skills independently

- I can record content following my plan
- I can review the quality of my recordings
- I can improve my voice recordings

To combine audio to enhance my podcast project

- I can open my project to continue working on it
- I can arrange multiple sounds to create the effect I want
- I can explain the difference between saving a project and exporting an audio file

To evaluate the effective use of audio

- I can listen to an audio recording to identify its strengths
- I can suggest improvements to an audio recording
- I can choose appropriate edits to improve my podcast

### Vocabulary:

audio, microphone, speaker, headphones, input device, output device, sound, podcast, edit, trim, align, layer, import, record, playback, selection, load, save, export, MP3, evaluate, feedback.
